

Amazon Web Services tendrá un servicio free

Amazon Web Services tendrá un [servicio free](#) de un año para nuevos clientes a partir del 1 de Nov.

Fundamentalmente podremos usar la mayoría de los servicios de forma limitada.

AWS Free Usage Tier (Per Month):

- 750 hours of Amazon EC2 Linux Micro Instance usage (613 MB of memory and 32-bit and 64-bit platform support) – enough hours to run continuously each month*
- 750 hours of an Elastic Load Balancer plus 15 GB data processing**
- 10 GB of Amazon Elastic Block Storage, plus 1 million I/Os, 1 GB of snapshot storage, 10,000 snapshot Get Requests and 1,000 snapshot Put Requests*
- 5 GB of Amazon S3 storage, 20,000 Get Requests, and 2,000 Put Requests*
- 30 GB per of internet data transfer (15 GB of data transfer "in" and 15 GB of data transfer "out" across all services except Amazon CloudFront)*
- 25 Amazon SimpleDB Machine Hours and 1 GB of Storage**
- 100,000 Requests of Amazon Simple Queue Service**
- 100,000 Requests, 100,000 HTTP notifications and 1,000 email notifications for Amazon Simple Notification Service**

In addition to these services, the [AWS Management Console](#) is available at no charge to help you build and manage your application on AWS.

* These free tiers are only available to new AWS customers and are available for 12 months following your AWS sign-up date. When your free usage expires or if your application use exceeds the free usage tiers, you simply pay standard, pay-as-you-go service rates (see each [service page](#) for full pricing details). Restrictions apply; see [offer terms](#) for more details.

** These free tiers do not expire after 12 months and are available to both existing and new AWS customers indefinitely.

The new AWS free usage tier applies to participating services across all AWS regions: US – N. Virginia, US – N. California, EU – Ireland, and APAC – Singapore. Your free usage is calculated each month across all regions and automatically applied to your bill – free usage does not accumulate.

Esta muy bien que Amazon facilite la adopción del Cloud Computing. Los usuarios de Velneo y PaaSOS podrán salir beneficiados de este modo free de Amazon.
